

Register when it's your time!

It's the Rise of Gen V: Generation Vaccination!

Registrations happen in phases for people of different ages and health conditions!
Look out for updates so you can know when it's your time to register.

Phase 1

Our front-line health workers get registered and vaccinated so that they can help us to get vaccinated.

Phase 2

Registration and vaccination will open for essential workers, people in congregate settings, our elderly loved one's and persons over 18 years with co-morbidities.

Phase 3

Registration and vaccination will open for people older than 18.

Why Vaccinate?

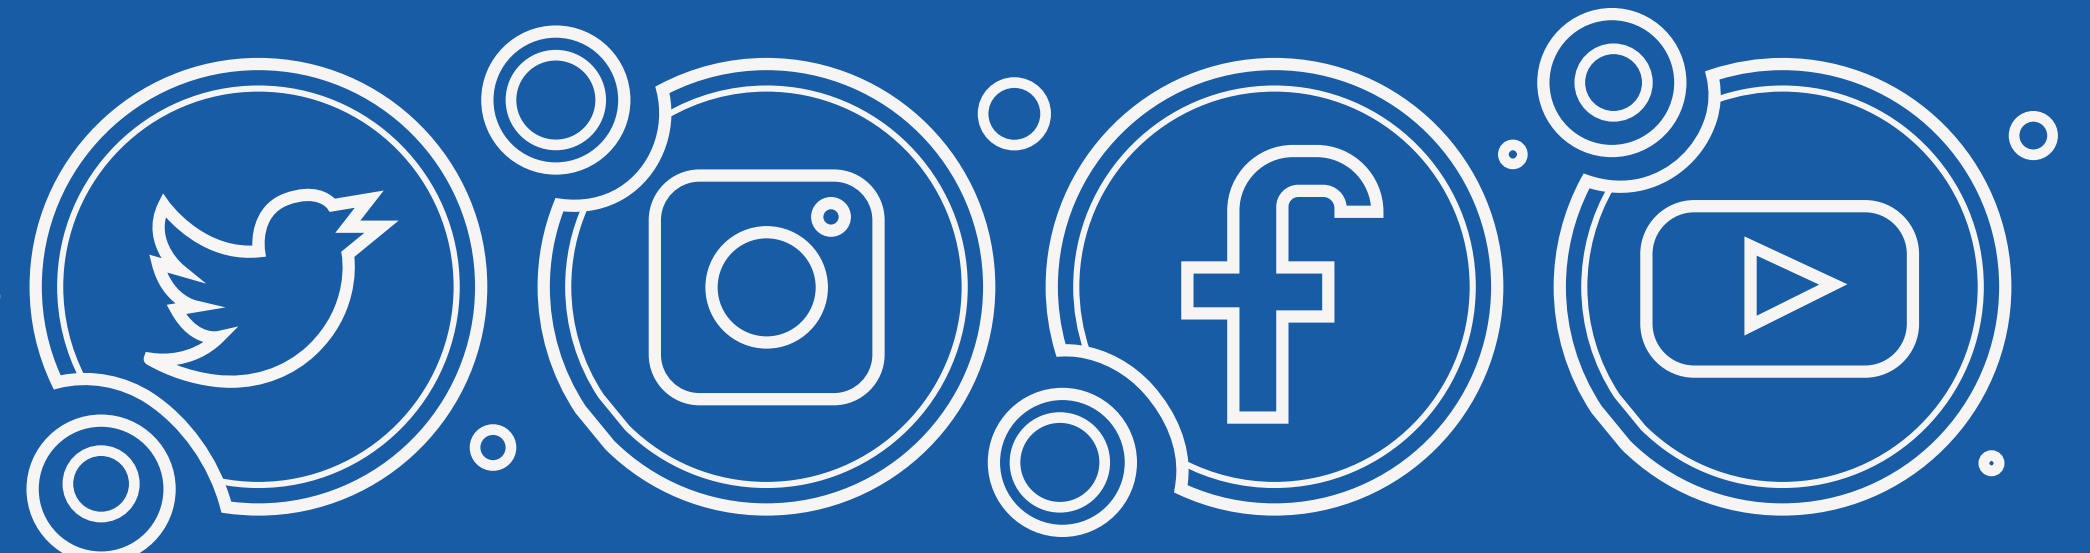

It's the best defense against serious infections! Science proves this.

Vaccines do not give you the virus! It teaches your immune system to recognise and fight the infection.

The more we vaccinate, the closer we get to a COVID-19 free generation, and stamp out the virus.
